

**About the registration fees:**

Even before the Global Pandemic, IZFS has been committed to exploring ways to reduce barriers to scientific exchange throughout the world by aiming to incorporate virtual components and access to IZFS conferences. The IZFS Executive Committee, Board of Directors, and Organizing Committee for the 17<sup>th</sup> International Zebrafish Conference have spent many months researching the best way to create a meaningful “hybrid” experience. As many meeting organizers have learned, the costs of offering a “hybrid” experience are greater than the costs of conducting either a fully in-person or fully virtual experience alone. The fees presented represent the true costs to IZFS to conduct the “hybrid” meeting. For more information, please contact [info@izfs.org](mailto:info@izfs.org).

The “hybrid” conference landscape is evolving quickly, and we look forward to continuing to learn and adapt in the years to come to ensure that we continue to meet the needs of our members and the international zebrafish community.
